Experience

Congruex (Terra Technologies) Lino Lakes, MN
Engineering Project Coordinator 1 Mar 2026 – Aug 2026

- Managed SAP job costing and budget tracking for 6 Project Managers across a $1M+ portfolio, coordinating with accounting to audit unbilled work and accelerate client billing
- Interpreted civil engineering plan sets, extracting technical specifications, site notes, and scope details into CRM systems to keep project deliverables aligned
- Facilitated cross functional communication with internal teams and client project managers, managing compliance forms, RFIs, and documentation packages
- Used Power BI to generate and distribute progress reports for internal teams and external clients, analyzing pipeline data to support resource allocation

Protolabs Maple Plain, MN
Sales Representative; Project Lead Sept 2023 - Dec 2024

- Founded and tested new sales process among junior and senior sales teams, increasing project close rates on handoffs by 30%
- Managed a rotating portfolio of 20-40+ concurrent manufacturing projects with a combined valuation of $150,000+, ensuring all milestones were met within 2-4 week production windows.
- Cooperated with cross functional internal teams (Engineering, Production, Quality, Customer Service) to align project requirements and successfully meet precise customer specifications and timelines
- Conducted discovery and needs assessments with clients to define project scope, objectives, and critical success factors for prototype development and rapid manufacturing
- Navigated complex stakeholder environments, effectively managing expectations and securing buy-in from diverse client teams at all levels of seniority to drive project completion
- Utilized Salesforce and HubSpot to generate reports, monitor project progress, and maintain accurate client records
